

I am writing to request that you not rule in favor of the CBA. I am very glad that the State of Indiana has worked very hard to come up with a telephone privacy law that protects me and my family from annoying phone calls and sometimes harrassing phone calls. The only time I would want to recieve phone calls from my bank only when there was specific business that I needs or warrants my involvement. i do not want to be solicited by phone by those places that I already do business. Thank you
